SUMMARY

Highly motivated and detail-oriented frontend developer with hands-on experience building responsive and interactive web apps using React, TypeScript, and Tailwind CSS. Passionate about creating intuitive user experience and eager to learn new technical skills to contribute to innovative projects.

PROJECTS

Converse E-Commerce Frontend Clone

(React, TypeScript, Tailwind CSS, React Router)

- Designed and built a responsive e-commerce frontend inspired by Converse's website
- Implemented dynamic routing, reusable components, and clean navigation flow and managed state using React hooks

Fitness Web Application

(React, TypeScript, Tailwind CSS)

- Followed a YouTube tutorial to build a responsive fitness app UI using modern frontend tools
- Built clean UI using Tailwind CSS with reusable, maintainable components

Twitter Clone (Frontend)

(React, TypeScript, Tailwind CSS, React Router)

- Built a responsive Twitter clone UI with posts, likes and comment feature and navigation (UI only)
- Used React Router for multi-page navigation including home, explore, and profile view

Awwwards Gaming Website

(React, TypeScript, Tailwind CSS)

- Built a responsive and animated gaming website featuring game cards, video trailers and visual effects
- Styled using Tailwind CSS with attention to responsiveness and modern design

Flowers Gallery App

(React, TypeScript, Tailwind CSS)

- A dynamic flower and houseplant browsing app built with React and Tailwind CSS. Features include filterable categories, animated UI with Framer Motion, and responsive layouts. Currently under development.
- Designed scrollable filters and theme-based UI with context API

SKILLS

Languages & Markup: HTML5, CSS3, JavaScript

Frameworks & Libraries: React.js, jQuery, Bootstrap 5, Tailwind CSS

State Management & Routing: React Query, React Router

Backend: Basic knowledge of Node.js, and Laravel

Version Control: Git, GitHub

EDUCATION

University of Computer Studies, Yangon (2020)

University of the People (current)

Bachelor's Degree in Computer Science

CERTIFICATION

“Fullstack Development” course by CodeLab
